USE A BILLION TO CUT COSTS OF FOODSTUFFS

Associated Press.
WASHINGTON, Aug. 1.—The members of the president's cabinet at a meeting yesterday in Attorney General Palmer's office, appointed a special committee to consider means of reducing living costs. The committee compiled all suggestions thus far made and will report to the cabinet Monday. Mr. Palmer said one suggestion was that the government sell this year's wheat crop at a market price to be determined by the law of supply and demand and make no guarantee to farmers out of the billion dollar fund congress has appropriated.

TWO SHIFTS ON KNOX MONDAY

The shaft at the Knox Divide Mining company is down 22 feet with a well defined ledge carrying four feet of ore which pans freely but differs from previous showings by improving in silver which now runs about fifty-fifty. Superintendent Geo. Badgett reported this morning that assays taken yesterday gave equal parts of gold and silver in a general sample that gave \$38. It has been decided to go ahead with the shaft on the present location and Mr. Charles Knox, president of the company, will arrive Monday to direct a general plan of aggressive development. The company has bought a truck and is building a blacksmith shop. Next week two shifts will be employed. Evidently there is a strongly impregnated gold ledge running through that section as yesterday it happened that a man from the other side of the hill brought a sack of rock to the Knox in order to use the mortar and soon had a string of colors coursing around the pan. The samples were supposed to have been taken from either the Banker or Leadville ground.

FORMER BELMONT BOY RETURNS FROM SIBERIA

James Papas, formerly employed in the Belmont mine, returned this morning from Siberia where he has been battling with Bolsheviks in the vicinity of Khabarovsk, 600 miles in the interior from Vladivostok. Jim says the followers of Kolchak were worse than the Bolsheviks although they were supposed to be aligned with the allies. Private Papas enlisted from Tonopah in the regular army on February 18, 1918, and was sent from Fort McDowell to the Philippines where he served with the 27th United States Infantry and remained with that regiment in Siberia for 3 1/2 months. He returned on the transport Thomas July 17 and says he is glad to be back in God's country.

ONLY ONE YEAR WAS WARMER THAN JULY

July did not break the record for heat, according to the report of C. D. Asher, United States observer, issued today. However, it may console some to know that July, 1917, was the only time the heat exceeded that of last month. The mean for the month was 76 compared with a normal of 72.6. The mean temperature for July in former years was: 1907, 72; 1908, 75; 1909, 73; 1910, 74; 1911, 73; 1912, 69; 1913, 70; 1914, 72; 1915, 71; 1916, 72; 1917, 77; 1918, 71. The total precipitation for the month was 34 as compared with a normal of 31 as of an inch.

Associated Press.
WASHINGTON, Aug. 1.—The state department is investigating reports that some American oil companies are negotiating to sell Mexican properties to Japanese. It is reported that the officers of these companies are said to have taken the step to protect their stockholders because they are unable to get protection for their properties.

Associated Press.
MEXICO CITY, Aug. 1.—Carranza told an Associated Press correspondent that Mexico would receive the nations of all countries who can show they possess wholesome ideals of citizenship and not prove a disturbing element in an interview outlining his attitude on immigration. Regarding the petroleum question he said "Mexico is not opposed to petroleum companies or any other foreign investors. We merely require that they abide by our laws." He said a new oil law is now in the hands of congress and could not forecast its provisions.

He declared that petroleum companies "have set out to engender ill feeling between the United States and Mexico. They are doing this through the medium of the press which is distorting facts to suit their own ends." He said a special commission appointed by the Mexican senate to investigate conditions in the Tampico region has completed its work. This report is private.

Associated Press.
WASHINGTON, Aug. 1.—Secretary Lansing told the senate that 217 Americans had been killed in Mexico since the end of the Diaz regime. He said that 342 claims asking for damages because of Mexican depredations had been filed during the same period by American citizens.

CHANGE OF FORMATION IN THE GIANT DIVIDE

A change of formation that is strongly indicative of an underlying ore body of value is being cut at a depth of 250 feet in the shaft on the Giant Divide property, one of a number of promising mining propositions in the south end of the Divide district. Seams of tale from a foot to three feet wide recently made their appearance therein and appear to be feeders for the main ledge that dipped in at a depth of about 200 feet and dipped out to the west at a depth of 230 feet. In general appearance the formation is identical with that encountered in the Tonopah Divide shaft at about the same depth and which when entered by the crosscuts on the several levels, proved to be highly enriched with horn-silver. The Giant management will cut a station at a depth of 300 feet and crosscut to the vein if mineral conditions continue to warrant.

NO POLICEMEN IN ALL LONDON

Associated Press.
LONDON, Aug. 1.—A police strike in London and the English provinces, called suddenly yesterday in protest against pending legislation affecting the police organization, went into effect today. Labor circles claimed 55,000 policemen and prison officials quit. Edward Short, home secretary, told the house of commons the strike was a failure, strike leaders asserted there would be no policemen on duty in London tonight.

SISTER OF MRS. WALZ INJURED IN ACCIDENT

Mr. Andrew Walz, engineer representing Sherwood Aldrich and the Jacking interests received a wire last evening from St. Louis stating that General A. B. Donnelly, U. S. A., the youngest brigadier general in service, had been killed instantly in an automobile accident and that his wife, a sister of Mrs. Walz, was injured. No particulars were given. Mrs. Walz, who is visiting in San Francisco, will return at once to Tonopah and proceed to St. Louis. Frank Thompson, one of the assay firm of Jannoy & Co., is a brother of Mrs. Donnelly.

INVESTIGATING RATES

Associated Press.
SAN FRANCISCO, Aug. 1.—The state railroad commission has ordered investigation of telegraph and telephone rates to begin September 2.

H. B. FRAZIER of the Congress Divide, has returned from the east.

The property is one of a number controlled by George Wingfield, Cal Brougher and J. Grant Crumley, and is conceded by mining men who are conversant with the ore characteristics in the south end of the camp to be in line with the strike of the main fault plant and for the discovery of pay deposits at or above a depth of 400 feet. The company is fully financed and within forty days from the time of financing the air drills were working in the shaft at a depth of 50 feet. The machinery equipment is electrically driven and has working capacity to a depth of 1000 feet.

In the Hercules Divide shaft, another of the Wingfield-Brougher-Crumley holdings in the south end of the district, an iron-stained quartz carrying low values is coming in at a depth of 165 feet, and would apparently indicate the approach to an ore body. The shaft is being sunk (Continued on page 6)

CHICAGO RIOTS THING OF PAST

Associated Press.
CHICAGO, Aug. 1.—State and city officials today pronounced the race rioting "at an end." Eighteen negroes and fourteen whites have been killed. The injured may exceed five hundred. Adjutant General Dickson said his troops are in control of the "black belt" and he feared no further outbreak. There were several calls for troops last night. Quick responses led to oppression of alterations.

OPTION ON THE DIVIDEND IS HELD IN ABEYANCE

The arrival of Ben Shaw, the broker from San Francisco, who has options on several blocks of Dividend stock involving control of that company arrived this morning in company with Jules Goldsmith and instantly became the center of interest owing to the fact that it was commonly believed the option would be exercised. Mr. Shaw refrained from affirming or denying the report. The market opened at 80, sold up to 82 on a buyer 30, and closed at 79.

DEATH OF GOLDFIELD ELK

The Goldfield Elks lodge has received word of the death in San Francisco of W. D. Moody, a pioneer mining man who promoted the Elks of Gold Mountain Mining company. Moody's death followed a long illness here after which he went to the coast in the hope of regaining his health. He was a member of the Goldfield lodge of Elks.

WILSON HOLDING TREATY PAPERS FROM THE SENATE

Associated Press.
WASHINGTON, Aug. 1.—A protocol defining explanations of the German treaty agreed to in memoranda the German and allied plenipotentiaries exchange was presented in the senate today accompanied by explanatory letters from President Wilson and Secretary Lansing. Among the provisions of the protocol is one requiring Germany to furnish a month after the treaty becomes law persons accused of violations of the customs and laws of war.

Senate Lodge put into the senate Record a copy of the treaty between the "big five" and Poland. He said this was submitted to the British parliament two weeks ago. Bernard Baruch, economic advisor of the American peace delegation, told the senate foreign relations committee that the reparation program was based on what Germany owned. He proposed a commission to decide how much the Germans could pay and not attempt to collect more.

Senator Lodge also presented the text of the agreement between President Wilson and representatives of the other big powers for government of the Rhine district. He said he received the copy privately after the document was presented to the British parliament.
